

RAIL BRIDGE WORKS – CHURCHILL DRIVE

February 2025

Dear neighbour,

In February we are planning to replace worn rails on the Johnsonville Line around Crofton Downs Station. This includes Bridge 2AA, which crosses over Churchill Drive / Waikowhai St.

To keep everyone safe, we will install scaffolding and catch nets under the bridge before we work. We will also need to stop traffic briefly while the bridge rails are being removed and replaced.

What to expect:

- From **2 to 5 February**:
 - We will work during the day to install the scaffold and catch nets.
 - We will **close one lane at a time** while we work, using Stop/Go signs to manage traffic.
- From **8 to 9 February**:
 - We will work during the day to replace the rail on Bridge 2AA.
 - Both lanes will mostly be open, but we will occasionally have to **stop all traffic for up to 10 minutes** while we move large pieces of rail on and off the bridge. This will be managed by temporary traffic lights.
- From **10 to 13 February** AND from **17 to 19 February**:
 - We will work during the day to do bridge maintenance and to remove the scaffold and catch nets.
 - We will occasionally **close one lane at a time** while we work, using Stop/Go signs to manage traffic.
